SUBSCRIPTION \$2 PER YEAR—ALWAYS IN ADVANCE.

BAY ST. LOUIS, MISSISSIPPI, SATURDAY, OCTOBER 3, 1925.

34TH YEAR—NO. 40.

HANCOCK COUNTY HOLDING THREE LOCAL FAIRS

Flat Top, Leetown and Sellers Each Holding Community Fairs Next Week—Under Auspices Home Demonstration Agent.

Community fairs will be held next week in Hancock county. The first is at Flat Top, on Monday, October 5th, the second at Leetown, Tuesday, the 6th, and the third at Sellers, on Wednesday, the 7th. These fairs will be held under the auspices of the public home demonstration work of Hancock county, Miss Maymie J. O'Donnell, in charge.

The people of Bay St. Louis, and in fact the public in general, are interested in these fairs. They are not only interesting and worthy of consideration.

Miss O'Donnell announces all exhibits will be in place by 10 o'clock a. m., that they may be judged by noon.

Prize-winning articles will be expected to go to the Gulf Coast Fair, Gulfport, October 27-31, 1925. Hancock county has provided \$500.00 in premiums at the Gulf Coast Fair. Exhibitors should attempt to win some of these.

Premium List.

 - Best wash dress.
 - Best club uniform cap and apron.
 - Best kitchen set, two holders and two towels.
- Record books must accompany all club exhibits of girls who compete for prizes.

DEATH OF FRANCIS SHAW.

Well Known Resident of Sellers and One of the Substantial Men of County Passed Away Tuesday Morning—Victim of Acute Indigestion.

Francis Shaw, native of this county, died suddenly at his home near Sellers Tuesday morning at about 10 o'clock, a victim of acute indigestion. He was busy over at his mill, near his home, when he complained of feeling ill and had time to reach his house when he passed away. He was 45 years of age.

Surviving him are his widow and six children, five sons and one daughter, namely, Weldon, Oscar, Arthur, Darwan, Edward and Hilma.

The funeral took place the next day, Wednesday, September 30th, in the First Baptist Church, officiating, Rev. F. H. Monticello, officiating.

Mr. Shaw was a nephew of Hon. Calvin Shaw, member of the Board of Supervisors from that section of the county. He was well known and highly esteemed. He was one of the substantial men of Hancock county, dependable and worthy of all who knew him. In his death not only his family has sustained a heavy loss but the county a good, upright and worthy citizen. As a tribute to his memory a number of prominent business men and others from Bay St. Louis attended the funeral.

—Have you bought your pair of Red Star Shoes yet? Well, you will, and then you will continue to buy them. Remember, every pair guaranteed by the makers. For sale at The Bay Mercantile Co.

GLEN FLEMING, FAIR DIRECTOR, GUEST OF BAY ST. LOUIS ROTARY

Glen Hunter, director general of the Gulf Coast Fair, to be held at Gulfport this fall, was the chief guest of the Bay St. Louis Rotary Club on Wednesday at its regular luncheon and meeting. Mr. Hunter came from Gulfport at special invitation of the club and addressed its members in the interest of the Fair, Gulf Coast Fair, if you please, said Mr. Fleming. "This is not Biloxi's, Gulfport's, Pass Christian's or any other town's fair," said he, "but a united Coast affair."

Mr. Hunter enthusiastically received the remarks received that on motion, unanimously adopted, it was decided to have Bay St. Louis city represented, and a space for booth and this city's headquarters were provided for.

A committee for this important work was appointed by President Leonard, with Robt. L. Genin, chairman; Chas. G. Moreau, John Osolnach, C. G. Moore, C. A. Breath, George R. Rea. The duties of this committee are to arrange for the entire work of this special exhibit. They will also be headquarters for the Bay St. Louis Rotary Club and for every Bay St. Louisian and Hancock countian visiting the Fair.

Chairman Genin will call his committee together within the next day or two, and "busy" will be the past week. This exhibit will in no way concern or conflict with that of the county agent and the home demonstration agent, nor that of Mrs. Donald Marshall, general chairlady for the county.

Through the activity of the local Rotary, Bay St. Louis will have an exhibit of its own. So much for our Rotary Club!

This week, published below, is a list of women work from the county in general and prizes to be awarded. Miss Maymie J. O'Donnell, in charge. Both of these lists, Mr. O'Donnell's and Miss O'Donnell's, are strictly from Hancock county and entitled to local prizes, that is, the amount of \$500 appropriated by the Hancock county Board of Supervisors has been equally divided and will be paid to Hancock county prize winners.

Miss O'Donnell's work comprises the following, showing what may be exhibited, cash prizes and instructions. If The Echo has not made it plain, Miss O'Donnell will be only too eager to interest herself further. This work comes under the heading of Hancock County Home Demonstration Club. The county agent's list was published in The Echo/September 19th. Mr. O'Neal will also be glad to give further information relative to his different departments.

Collections may be made up of individual jars belonging to different exhibitors.

Containers: All plain canning, in square quarts, having glass tops; all bottle products in standard 8-ounce bottles, jellies in 6-oz. glasses, preserves and pickles in 12-oz. jars, 12-oz. jars, pickles in 4-oz. jars, chicken products in glass jars with glass tops, and also tin.

PREMIUM LIST WOMEN'S WORK AT COAST FAIR

Home Demonstration Agent Hancock County Gives List of Articles and Prizes To Be Exhibited From Hancock County at Coast Fair—Cash Prizes.

Recently The Echo published the full list of exhibits and prizes planned for Hancock county at the Gulf Coast Fair, October 27-31, under the heading of the county agent's work, S. F. O'Neal, in charge.

This week, published below, is a list of women work from the county in general and prizes to be awarded. Collections may be made up of individual jars belonging to different exhibitors.

Containers: All plain canning, in square quarts, having glass tops; all bottle products in standard 8-ounce bottles, jellies in 6-oz. glasses, preserves and pickles in 12-oz. jars, 12-oz. jars, pickles in 4-oz. jars, chicken products in glass jars with glass tops, and also tin.

HANCOCK COUNTY "BETTER BABIES" CLINICS HAS BUSY WEEK.

The County Home Council Demonstration, co-operating with the County Health Unit, has been holding baby clinics in various parts of the county.

Babies were examined at the following places: Logtown, Pearlton, Weston, Leetown, Caesar, Sellers, Lakeshore, Waveland and Bay St. Louis. The total number of babies examined at these clinics was 161. Particularly outstanding work was done at Kiln, Sellers and Weston, these people were keenly interested and alive to the benefits derived from such meetings. At Kiln alone 51 babies were brought in through the efforts of the wide-awake P. T. A.

After giving this number a complete physical examination, 57 were found to be near enough normal to be given health buttons. While this number would not make a perfect score, certainly there was no physical defect that would prevent the baby from developing into a perfectly normal, healthy child.

Of the remaining 110, or, broadly speaking, two out of every three were retarded by one or more physical defects. The most universal defect was defective teeth. The most serious defects were the results of improper diet, or rather an unbalanced diet. Mothers should understand that diet has nothing to do with plenty to eat; diet consists solely of the right kind of food to meet the body requirements. For instance, a food suitable for bone building will not make muscle, nor will a food for teeth building make rich blood. Improper feeding not only retards the normal growth, but, in fact, is the chief cause of the following diseases: Rickets, tuberculosis, anaemias, malnutrition, scurvy, decayed teeth, underweights, etc. Late in it has been found that sunshine is a great factor favoring the malnourished child and is accepted as a specific treatment for rickets. Sunshine will not correct feeding defects, but it does delay the symptoms and frequently prevents them from becoming pronounced in some cases.

MISSISSIPPI BOND COMPANY HELPING GULF COAST.

Recently Organized Concern Heads Syndicate Handling \$425,000 For Hotel Construction at Biloxi. Speaks Well For Home Concern.

The Mississippi Mortgage and Bond Company, of Gulfport, though only a little over two months old, having been organized the first of July, is already actively engaged in the financial world. This firm headed the syndicate handling the \$425,000 bona fide mortgage recently made by the Vista Hotel of Biloxi. This company was formed to assist in financing new enterprises looking toward the development of the Coast.

W. M. Monroe, active manager of the Mississippi Mortgage and Bond Company, formerly with the Watson, Williams, company, of New Orleans, states that the first through the New Orleans connection, is enabled to buy or sell any listed or unlisted securities on the stock exchanges of the United States.

The firm also has a mortgage loan department, handling purchases and sales of first mortgages along the Gulf Coast. This department was organized the first of September. According to Otis J. Chamberlain, manager of this department business is already developing very rapidly. Mr. Chamberlain was formerly auditor of the Mortgage and Securities Company, of New Orleans.

Leo W. Seal of Bay St. Louis, is president of the company, while E. C. Tomasiere, of Biloxi, and A. L. Jagoe, of Gulfport, are vice presidents, and G. E. Williams, of New Orleans, secretary and treasurer.

Work on the addition to the Vista Hotel has already begun, said Mr. Monroe, thus showing that we are helping to finance some real development along the Coast.

Mr. Chamberlain, manager of the department handling purchases and sales of mortgages, was in Bay St. Louis Thursday and will be in Biloxi the success of his company is meeting with, and further that it is instrumental in helping to develop the Mississippi Gulf Coast. This company in time will be handling millions of dollars and that extent will be proportionately help to build and develop the Coast. The organization of the Mississippi Mortgage and Bond Company is one of the best things to have happened for the Coast, from Pascagoula to Bay St. Louis.

"THE GREAT CIRCUS MYSTERY."

An Unusual Story of Heroism and Thrills of Circus Life, in Serial Form, Coming to A. & G. Theatre. Showing Every Saturday.

Beginning next Saturday, October 10th, the A. & G. Theatre will begin its regular matinee season, at 4 o'clock, with special dry prices. On Saturday, a week later, the 17th, "The Great Circus Mystery," featuring Joe Bonomo, a modern Atlas, Lorraine, as the heroine. It has the irresistible appeal of the circus itself and no one will want to miss it. Further particulars read the A. & G. ad or page 2, only since printed the date for the Circus Serial has been changed to October 17th from the 10th.

Everybody, young and old, loves a circus. This picture will show from week to week the real glamour, fascination, thrills and romance of life in a circus. The roars of jungle beast, the crack of the ringmaster's whip, the surging crowds of strolling events that test the courage of circus stars. Moments of agonizing suspense and cataclysmic peril follow with lightning like rapidity. The film has the stars—the mighty, muscular Joe Bonomo, the world's strongest man, and beautiful Louise Lorraine, as the heroine. It has the irresistible appeal of the circus itself and no one will want to miss it. Further particulars read the A. & G. ad or page 2, only since printed the date for the Circus Serial has been changed to October 17th from the 10th.

Gus E. Tremplett, well known jeweler and optometrist, left Sunday for his annual vacation, which he generally takes at this delightful time of the year, when others are coming home. Mr. Tremplett is present at Hot Springs, Ark., where he is registered at one of the more prominent hotels.

Three quarts fruits (pears, beets, tomatoes), (peaches, pears, berries) first \$5.00, second \$2.50, third \$1.00.

Clothing. First \$5.00, second \$2.50, third \$1.00.

When only one article is exhibited and quality does not justify, no prize will be given.

MISSISSIPPI MAY ENTER CAMPAIGN FOR ADVERTISING

Constructive Work May Develop at Coming Session of Legislature. California and Florida Plan of Advertising May Be Adopted.

California sunshine and Florida weather are known to practically every newspaper reader in the United States, by reason of the extensive advertising campaigns promoted by these States.

California is the pioneer in the field of State advertising. The Palms, an organization which has for its purpose the promotion of State possibilities, raises yearly by various methods approximately \$100,000 for the specific purpose of promoting the desirability of living in California, to the rest of the country. This plan has admittedly been attended by thousands of tourists, home seekers and investors, and in one year brought more people to California than a ten-year period previous to the adoption of the advertising campaign.

Florida, enriched by becoming the playground for the rich, is pursuing a similar method with equally successful results. The climate that Florida is now known throughout the world and breadth of the United States, and an ever increasing stream of prospective residents are attracted to Florida borders.

In view of these two successful states, many prominent Mississippians are of the opinion that the State, with its abundant resources, ideal climate and long growing season, could be placed before the public by means of an advertising campaign and secure the same results that have been the result of publicity elsewhere, and that more could be accomplished in a shorter period of time by this plan than with the use of any other system.

The next Legislature is expected to do some official advertising work for the State and any real work, nothing along this line that would be more far reaching or get greater results than to provide a State advertising fund. The county should be given authority to levy a small tax for advertising purposes. In this way the State and county could work with various business organizations in putting over advertising campaigns for the State and some substantial results secured. The recent "Know Mississippi Better" campaign should be followed up, and next year another train sent out on the same mission.

The story of Mississippi's advertising should be told in the newspapers and magazines. Wholly owned by a million a year out of chewing gum, cents a package. As a result of this own statement his advertising campaign and secure the same results that have been the result of publicity elsewhere, and that more could be accomplished in a shorter period of time by this plan than with the use of any other system.

It can be done. Shall we do it?

K. C. INSTALLATION AT GULF PORT.

Delegation From Bay St. Louis, Representing P. T. A. Council, Attended—Several Among the Speakers of the Evening.

The installation of recently elected officers of Gulfport Council, Knights of Columbus, took place at that city Thursday night, and members from along the Gulf Coast and interior of the State were present.

Bay St. Louis P. T. A. Council was represented by Rev. Father Gmelch, Messrs. J. O. Mauffray, E. J. Giering, Ed. Arceneaux, A. Scaride, Arthur A. Scaife, Alden Mauffray, Jos. Adams, Jr., August Schmitt and Leo Murtagh.

Among the speakers of the evening from Bay St. Louis were Father Gmelch, Jos. O. Mauffray, E. J. Giering and August Schmitt.

BAY-WAVELAND CLUB PARTIES FOR WINTER.

The Bay-Waveland Club will within the next few days send out cards to its members for a "500" and bridge party, which will take place on the evening of Saturday, October 24th, at the club house, with prizes to the winners.

This is the first of a series of complimentary parties the club will give during the winter, possibly two every month, for the benefit of their members and their guests. There will be no charges whatever, either for the parties or refreshments.

The next number to follow will probably be a complimentary dance, and other forms of entertainment will be given from time to time. The purpose of the club, to make it a social center for its members and guests, will be more marked this winter than ever.

Since the names of all delinquent members have been posted publicly in the club house, according to the association's by-laws, no invitations will be mailed to those in arrears.

Anticipating this series of beautiful affairs for which the club is noted, there will be much longing and anticipation until October 24th. That the Bay-Waveland Club is a live factor in our city there is no doubt.

Mr. and Mrs. Max Kohler and family have closed their summer home on the beach front and returned to New Orleans, where they have taken apartments at the new Roosevelt Hotel. They plan, however, as is their usual custom, to spend weeks at their handsome Bay St. Louis home.

THE SEA COAST ECHO

At last reports Henry Ford's dancing class had not yet taken up the Charleston.

As we understand it, Colonel Mitchell wants to put the air service on a higher plane.

The pedestrian and the pedestrian are alike in that the fate of each is certain.

Turkey is getting rather chesty considering that Thanksgiving is only a few weeks off.

Too bad the beach beauties cannot preserve their coats of tan by putting them away with moth balls.

When a Chinese tong warrior buries the hatchet it is usually in the anatomy of his enemy.

Maybe the husband would mail the wife's letter more promptly if she would put a special delivery stamp on it.

Urged by his sweetheart to reform, a young New York burglar known as "Slim," agreed to compromise by becoming a plumber.

Some of Uncle Sam's foreign investments may not be entirely sound but they nevertheless have the appearance of permanency.

Press service reporters are getting careless. Two or three times lately they have failed to designate Colonel Mitchell as a stormy petrel.

Handshaking is becoming tame among the Italian Fascists. How in the world do any of these fellows expect to get elected to office?

General Andrews' decision to keep individuals of the enforcement organization out of the limelight is a hard blow to Roy Asa Haynes.

The defense for two Chicago bootleggers pleaded that they were feeble-minded and under the influence of moonshine. Proof on the latter condition would go a long way toward establishing the former.

Bathers at a Connecticut beach emerged from the water in variegated bright hues when refuse from a nearby dye works was dumped into the Sound. Reports of the recurrence may also have been slightly colored.

Virginia master plumbers are going to be making a campaign for the suppression of jokes concerning the slowness of their workmen, their habit of forgetting tools, and the excessive charges made. They should be glad that people take these little peculiarities good naturedly.

John B. Reid, former bankrupt business man of Birmingham, made quite a lot of money in Miami Beach real estate and has declared his intention of paying his creditors in full. This is mentioned in commendation of Mr. Reid and not as propaganda for Florida real estate.

A. L. Kundred was expelled from his church at Goshen, Ind., because of his persistence in hybridizing gladioli in his valuable gardens. The elders declared that if the Almighty had wanted the new-fangled flowers He would have made them that way. The elders evidently have Fundamentalist leanings.

DEFENDS MODERN WOMEN.

In striking contrast with gloomy and pessimistic criticisms of the despotic reformers, who would make us believe that modern womanhood is going to the dogs, the statements of Dr. W. S. McCulloch, health officer of the Province of Ontario, in an address before a Canadian Kiwanis club, are most refreshing.

Dr. McCulloch declared that the low neck, bare arms, short skirts and bobbed hair all make for comfort and cleanliness and consequently for health and morals. He contrasted modern styles with the abominations of the past—long, trailing, garnishing skirts; steel-ribbed corsets that compressed the body unnaturally; heavy clothing that shut out the beneficial ultra-violet rays of the sun; disgusting and insanitary "rats" in the hair; the atrocious hoop-skirt and bustle, and other ridiculous fashions of a former day.

Owing to the more sensible and healthful practices of the present, he stated that the baby born today has on an average twelve years longer life ahead of him than his grandparents had.

Touching upon the effect of modern styles with respect to morality, Dr. McCulloch said: "In my opinion, the women of today are more virtuous than at any time in the history of the world."

Inasmuch as all the ranting of critics is not going to cause the modern woman to change her mode of dress until she gets ready to change it, we may as well agree with Dr. McCulloch that she knows what is good for her and let it go at that.

NATIONAL MOTORCADE TO BAY ST. LOUIS.

The National Motorcade from Chicago and tributary points north will reach the Mississippi Gulf Coast Friday, October 16th, in time for dinner that evening, according to the latest and authentic report. The party will remain all night in Gulfport, and will spend Saturday and Sunday on and along different points of the Coast.

It was rumored at first the motorcade would not come to the Coast, but rather travel by a diverse route and visit Florida only. But this has been officially denied. Replying to a telegram as to whether the motorcade would visit the Coast or not, Arthur Lang, in charge at Gulfport, received the following message from J. P. Martin, president of the National Motorist Association:

"There are no interests sufficient in powerful to divert national motorcade from Mississippi Gulf Coast. Strongest bond procurable is no better than the policy or word of the National Motorist Association. We have promised you the motorcade, and, barring accidents and conditions over which we have no control, Divisions Two and Three will arrive in Gulfport for a good fish dinner Friday, October 16, and will remain Saturday and Sunday. Disregard report, and any rumor to the contrary. Division One routed direct to Florida from Memphis. Mardi Gras and barbecue scheduled for Gulfport."

No definite plans for entertainment at Bay St. Louis have as yet been determined. R. L. Genin, of Bay St. Louis, is chairman of a committee from the Bay St. Louis Rotary Club to meet with the main committee at Gulfport this afternoon and to officially decide on the program, and principally to get the motorcade to visit this city. It is planned, tentatively, to get every motorist at Bay St. Louis by special train, and entertain with a fish dinner, or any other form of entertainment better suited. A ride over the city will also be included in the program.

We can see no better advertisement for Bay St. Louis just now, and the hope is expressed the able committee in Gulfport this afternoon will succeed in all they have gone on in the meantime and in parentheses, we hope the weeds growing wild and at a frightful height in principal parts of the city will have been removed. Although an ordinance exists covering this, owners of vacant lots and sidewalks apparently treat it with no regard. Moral and civic pride, however, should control this. Mr. Citizen, it is right up to you, individually.

Bay St. Louis will be there, too.

Commendation of the highest order is due the Bay St. Louis Rotary Club for the substantial interest manifested Wednesday in the matter of Bay St. Louis and the Gulf Coast Fair, to be held at Gulfport on the 27th-31st of the present month.

Bay St. Louis is to be individually represented at the Fair. A booth of its own will prove of interest to all visitors, and by no means the least our own people who will visit the Fair in large numbers day after day.

Thursday, the 29th, has been selected as Hancock County Day, dedicated to our people. The Bay St. Louis Rotary Club had the pleasure and honor, with Director General Glen Fleming present, to select the day.

The Bay St. Louis booth exhibits will be entirely different from the work of County Agent O'Neal and Miss O'Dom, in charge of the home demonstration clubs. It will be for the city of Bay St. Louis, fostered by the Rotary Club, and will show scenes and exhibits from the city proper.

A committee for the purpose was appointed, namely, Robt. L. Genin, chairman; Chas. G. Moreau, John Osoinich, C. G. Moore, Chas. A. Breath, George R. Rea. To these gentlemen will fall the main work, however, to be assisted by others.

That the Rotary Club loses no occasion to give Bay St. Louis publicity, when within its province and scope of work, is well evidenced in this effort to have the city represented at the Fair, or else Bay St. Louis would have been conspicuous for its absence, were it not for the progressive spirit of the local Rotary. Pass Christian and other Coast towns have already secured their space for exhibit booths of their own and promise to make splendid showing. Bay St. Louis will be there, too.

A COMMUNITY CHRISTMAS TREE.

It is gratifying to learn an organized effort is at work to give the children of this city a community Christmas tree, same as last year, when the Neighborhood Circles of the Catholic Church warmed and cheered the hearts of hundreds of children. Many came from the interior, where there is no Santa Claus, and it meant more to these children than quoted by pen or tongue.

We wish to commend the spirit of the ladies who are fostering this movement, and further the fact they are working for the general good, recognizing no creed or partisan lines. May God speed them in their work.

FREE FLOW OF POWER.

Secretary Hoover has issued a statement in which he questions the constitutionality of State legislation imposing an embargo upon the exportation of hydro-electric power to other States.

Pointing out the great strides being made in the development of water power, he predicts that the electric utilities of the future will furnish the energy to create in the United States the most efficient factories and the most comfortable homes in the world.

He declared that inasmuch as the public reserved the right to fix rates and limit profits of electric companies, the industry should not be hampered by unwise restrictions which would inevitably increase operating expenses and prevent maximum efficiency.

Referring to the necessity for steam plants as adjuncts to the great hydro-electric systems, Secretary Hoover said:

"The whole development of the industry indicates that the most economical use of water power must be made in combination with large central steam plants. Thus a district pooling of production and distribution is necessary if hydro power is to be cheaply developed and used."

STILL A VERY LIVE ISSUE.

Quite a commotion has been created in prohibition circles by the publication of an exhaustive report by the Federal Council of Churches, which shows on the whole very poor progress in enforcement.

Officials of the Anti-Saloon League have criticized the report as being antagonistic to prohibition. In a controversy where facts are so difficult to obtain, it is natural that there should be wide differences of opinion, but one thing is certain—prohibition is still a very live issue and will be for a long time.

INTERESTING NOTES.

In the early days of knives and forks, persons invited out to dine took their own silverware with them.

The number of horses in the United States exceeds the number of automobiles by about two million.

Former Kaiser Wilhelm was paid \$8,000,000 by the new German government for the property that was seized by the republic.

During the war only 14 out of 14,000 houses in Rheims, France, escaped being struck by German shells.

Daniel Webster and Henry Clay at one time borrowed money on notes signed by them jointly.

Railroads of the United States consumed more than 63,000,000 barrels of crude oil during the past year.

Women may now attain the highest positions in the British civil service, although formerly confined to the lower classifications. They may also continue to hold their government jobs after marriage.

In 1700 the city of New York had only 6,000 inhabitants, one-half of whom were negroes.

President Washington never shook hands with callers at White House receptions.

MARKHAM STRONG FOR GULF COAST.

President of Illinois Central Railroad Speaks of That Stretch of Some Forty Miles Between Bay St. Louis and Ocean Springs.

The Memphis Commercial Appeal reports President Markham as strong for the Mississippi Gulf Coast, according to a recent article which it carried a few days ago.

To quote him verbally: "There is another place in the South which is destined to enjoy a steady, substantial growth and a vastly increased population. That is the 'Little Riviera' of the Gulf—that stretch of some forty miles along the southern Coast of Mississippi, between Ocean Springs and Bay St. Louis."

The South is just entering upon an era of unprecedented prosperity, in fact, "the greatest year that the South has ever had," in the opinion of C. H. Markham, president of the Illinois Central Railroad, to quote the Commercial Appeal.

"Conditions never have been so favorable," Mr. Markham declared. "The Delta region is coming into its own. The cotton crop throughout the whole Southland is marvelous. There isn't a doubt but that the greatest year the South ever had is upon us."

The boom in Florida had been a blessing to the whole of Dixie, too, Mr. Markham asserted. He based this belief on the fact that many thousands of persons going to Florida had seen portions of the South which they never before had viewed and that the result was an eye-opener for them.

"The duration of the extent of the Florida boom no man can tell," he said. But he named as the reasons for the boom the natural growth of the country, which had brought great increases in the number of persons who can afford to avoid the rigorous winters of the North by sojourning in the warmer climes.

"Florida was one of the natural places to which this constantly increasing number might turn," he said. "California enjoyed a growth somewhat similar, but California is too far away. They turned to Florida."

"But there is another place in the South which is destined to enjoy a steady substantial growth and a vastly increased population," he added. "That is the 'Little Riviera' of the Gulf—that stretch of some forty miles along the southern coast of Mississippi, between Ocean Springs and Bay St. Louis. There you are going to see development, not similar to that in Florida, but a steady growth, a substantial expansion. There is destined to be a great playground for the Eastern and Central States. It will not come in a year, but it will surely come. The work has already been started."

German chemists have discovered a process for producing synthetic methyl alcohol (wood alcohol) from carbon monoxide at producer-gas plants. If as successful as experiments indicate this will do away with the annual destruction of many thousands of acres of hardwood forests in this country and Canada, and revolutionize the wood chemical business.

Firestone

Double the Mileage at Half the Cost

Only a few years ago a 32 x 4 cord tire listed over \$50.00. Today, you can buy the highest quality 32 x 4 tire—a Firestone Gum-Dipped Cord—for about \$26.00.

Last spring crude rubber cost tire makers around 40 cents a pound. Today, it is over 90 cents a pound.

It was not so long ago that 7,500 miles represented the average life of a cord tire, while today, 15,000 miles—and more—is only the usual performance for a Firestone Gum-Dipped Cord.

Due to large, concentrated production, specialized machinery and simplified factory methods, together with economical distribution, Firestone is able to keep tire prices low—no matter where the price of crude rubber goes.

And, because of special Firestone processes, chief among which is Gum-Dipping, motorists are today getting thousands of extra miles by using Gum-Dipped Cords.

Gum-Dipping is an exclusive method used by Firestone. It is an extra process, carried out in special Gum-Dipping plants, after which the cords are put through the usual calendaring machines. Gum-Dipping insulates and impregnates every fiber of every cord with rubber, and practically eliminates internal friction and heat, and builds strength and endurance into the tire.

In the day-in and day-out service of taxicabs, buses and trucks—on the cars of hundreds of thousands of motorists everywhere—Gum-Dipped Cords are giving unheard-of mileage, dependability and satisfaction.

Get ready for the coming months of slippery pavements and bad roads. Assure yourself of greater safety, comfort and economy by equipping now with Firestone Full-Size Gum-Dipped Balloons.

FEDERAL Defender Cord

In the Defender Cord is found a big measure of true Federal quality, at a surprisingly moderate price. It is a well constructed, good-wearing cord with a safe non-skid tread and yields service, often far beyond heavier cords of other make. It is an unmistakable value—a tire which will prove thoroughly satisfactory and which is constantly winning new credit for its maker.

BASEBALL

ROCK-A-CHAWS AND ORIOLES TIE.

"Cotton" Collier, 16-Year-Old Twirl-er, Bests Vet. Daily in Pitchers' Battle—Should Have Been "Shut Out" for the Kid—How 1926 Rock-a-Chaws Will Stack Up.

Foster Commagere's Rock-a-Chaws ended the baseball season last Sunday when they crossed bats with the New Orleans Orioles and battled for ten innings to a 1-1 tie. Cotton Collier, the youthful twirler for the Cardinals and Black, should have been on the long end of a shut out. Two misuses were the costly obstacles that occurred in the sixth frame which robbed the hard working youngster of the laurel. At no other time during the game was he in any danger from the hard hitting veterans that faced him. As cool as any old head with a control that will yet put him somewhere, Cotton forged on to the end without faltering; in fact, he was going strong in the tenth when he whiffed two of the batters who faced him.

It is safe to say that with the well known coaching of Commagere, between now and the opening of the next season, this lad will deliver a class of goods that will play havoc with the batting averages of many 1926 opponents.

Day, pitching for the Orioles twirled a good brand of ball. He's a V.C. and has a fair reputation in the box, but the local general manager of seven bingles off him, and five were given free transportation to the initial bag; while the stocky Cotton gave up but five hits and did not walk a man.

The Rock-a-Chaws started off in the very first frame with a score: LaNada was given a ticket to first, was sacrificed neatly to second by Rinaudo; Houn bunted, and the ball was not fielded; then Big Zeke Bynum slammed one towards third; Jimmy left the hot corner at the crack of the bat and beat the throw in for a score.

With the exception of a couple of scattered hits, there was nothing shaking till the sixth inning, when the visitors tied the score. Daily flew to Zeke; E. Serpas hit a hot one to second and beat the throw; Tazier singled to left; Kline hit to right and a wild throw to third to catch Serpas, the Orioles scored. From then on it was a case of three up and three down, until the ninth inning, when the visitors attempted to stage a rally. Kline beat out an infield hit; shorty Ryal hoisted one to center; Connelly hit to Collier; and forced Kline at second, but Bontemps threw wild to first. Concher, batting for Hawley, singled to right, but a pretty piece of rapid fielding caught Connelly between third and home.

Altogether it was a nice, fast game and witnessed by a goodly crowd of rooters.

Thus ends the greatest American sport for the A. D. 1926, as far as the locals are concerned.

Next Year's Rock-a-Chaws. Advance notices of teams are always more or less optimistic, but the very fact that the GOODES are right-side-up in the Stanislaus storage for the coming year, makes it a foregone conclusion that Foster Commagere will have one of the best teams for the '26 diamond that ever wore the old Rouge et Noir. What with Bonura, Blaize, Montz, LaNada, Rinaudo and Schwartz, supplemented by Bontemps and Manuel Fernandez, from which to select an infield, and Houn—who has all the marks and brands of a ball player—Andy Fernandez and Rayne in the outer gardens, there will be little lacking to complete an outfit per excellence. Another pitcher to add Buck Martin and Collier, would put a piano polish to the outfit.

At any rate, there's a goodly smile on the urbanite countenance of "The Prep School Coach" when anyone talks 1926 baseball. He should worry.

We forgot to mention that there was an UMPIRE officiating at the Rock-a-Chaw Park last Sunday. In the absence of Seuzneau, who does the honors at most games, Dick Cue was yanked out of the stand and given the indicator. Dick hadn't been given since the series between the Yanks and the Confederates but he went in and endeavored to stand the gaff. Old Sleuth, whose admiration for Dick's decisions is of such a character that he went all over town looking for Judge Starr to have charges preferred so that he could serve the warrant, was in a terrible mental state after the game. While he could not break into the game, Old Sleuth had the head of the protection Dept. rallied a crowd and razed the umpire strongly. It came out after the game that Dick had criticized the Sleuth a couple of years ago when that officer essayed the pitching stunt, and the latter still has it in for him. Some naughty person remarked that one time of the game, instead of "three over, two on the batter, Dick called out: "Three cases of Pop!"

There's many a fan who could umpire worse than Dick did, and it was a good thing they selected him.

YOUNG GARCIA TO FIGHT IN BILLOXI TUESDAY NIGHT.

Al (Young) Garcia, of Bay St. Louis, will box Kid Mex, of Ocean Springs, in the opening four-round, in Biloxi, next Tuesday night.

Garcia is managed by Sidney Manieri, who says the boy is in first-class condition, and a good scrapper who will give the fans a run for their coin.

This will be Garcia's second appearance in Biloxi, and we are quite sure he will bring back the bacon, despite the fact he lost in his first time out.

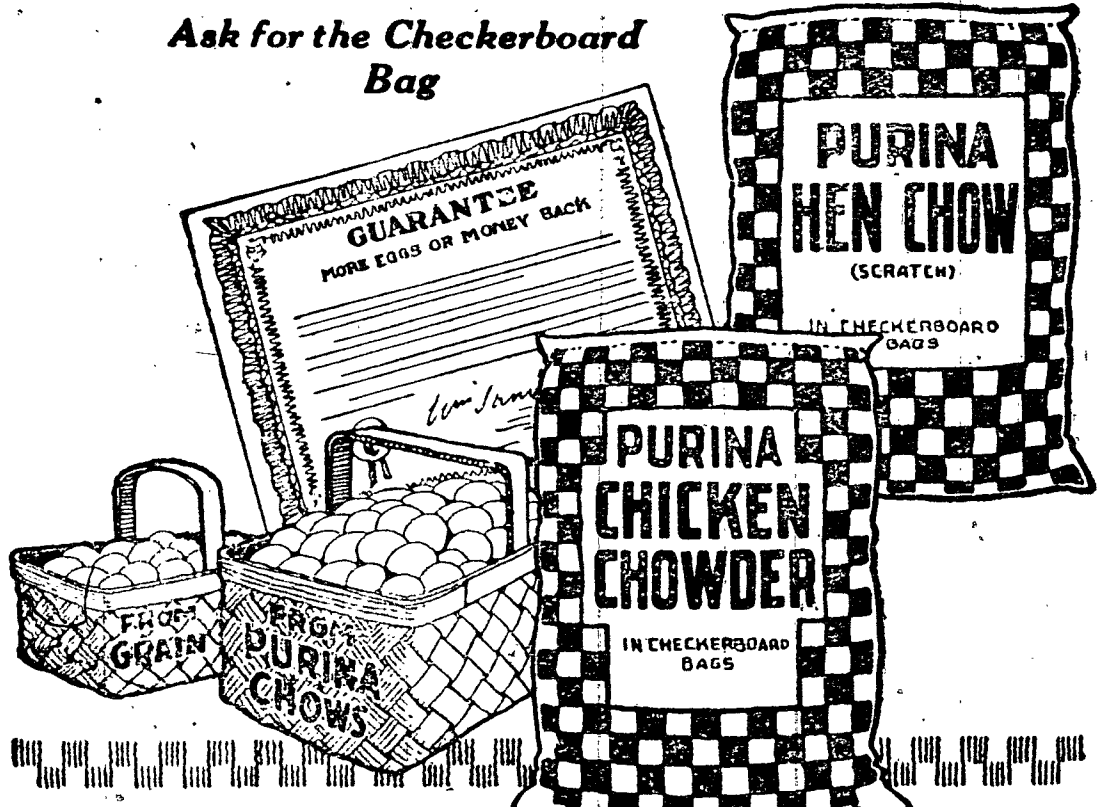

No Guess-Work Here

Most folks know that getting eggs depends largely upon the hen's feed—Yet with many people feeding is guess-work. Their hen's lay part of the time and usually "board" when eggs are most profitable.

More Eggs or Money Back

The guarantee behind Purina Hen Chow and Chicken Chowder eliminates all guess-work. These Chows have all the elements that make eggs. That's why they are offered on a money-back guarantee.

WHAT THE BOUSLOGS ARE DO-

ING IN GULFPORT.

A social item in one of the Coast prints says Mr. and Mrs. M. Perry Bouslog have just returned from Denver, Colo., where Mr. Bouslog attended a meeting of the American Title Association.

This item is of local interest because Mr. Bouslog and his father lived in Bay St. Louis for quite a number of years after coming south from their native home in Indiana, he son finishing in the Bay St. Louis schools.

After leaving here Mr. Bouslog lived in Gulfport, with his father, who later became mayor of that city, and remained there until 1913, when he moved to New Orleans and started the Union Title and Guaranty Company, of which he has been vice president until recently, when he resigned to enter the real estate business in Gulfport. He will be associated with his father, W. H. Bouslog.

Mr. Bouslog has been president of the American Title Association.

and is now on the executive committee of that organization.

"I see the great future of Gulfport and the many opportunities here and have come home to stay," Mr. Bouslog said when asked about his work to a Gulfport reporter.

Mr. Bouslog has been away from Gulfport, as far as business is concerned, twelve years, but all during this time he has called that city his home.

"Everybody in Denver is talking Gulfport and the Mississippi County and I came home by way of Chicago and found that the people there already knew of the future and possibilities of this fine Coast country."

Mr. Bouslog is a great optimist and has been most successful in the title and guaranty business, and in real estate. He has every reason to believe a thorough development for the Coast, from Bay St. Louis and vicinity to Pascagoula, is in store and that in the immediate future. This is no idle speculation.

English wool growers are said to have been enabled to secure two to three crops of wool a year by giving their sheep a new serum, according to a report recently published.

Uneasy

Tight Feeling

"I used Theodor's Black-Draught first for constipation," said Mrs. C. E. Buntin, of R. F. D. 5, Starkville, Miss. "I would feel dull, stupid, and have severe headaches, even feverish. I had an uneasy, tight feeling in my stomach. I read quite a bit about

BLACK-DRAUGHT

Liver Medicine

I began using it and soon my bowels acted regularly and I was greatly relieved. I used it every once in a while for about 18 years.

"About two years ago I found I was having indigestion, a tight smothering in my chest, severe pain, especially after eating sweets. I commenced taking just a pinch of Black-Draught after meals, and by doing this I could eat anything.

"I gave Black-Draught to my children for colds and headaches. I can certainly recommend it."
